Inhalt

1 General ... 7
1.1 Definitions ... 7
1.2 Laws, regulations, directives and standards ... 8

2 Steam generator design ... 9
2.1 Evaporative systems ... 9
2.2 Pressure stages ... 10
2.3 Supplementary firing systems ... 10
2.4 Circuitry at cold end ... 11
2.5 Bypass ... 11
2.6 Special designs ... 12

3 Design ... 12
3.1 Pressure parts ... 12
3.1.1 General ... 12
3.1.2 Fin tubes, fin pitches, radiant heating surfaces, materials ... 13
3.1.3 Headers ... 15
3.1.4 Drums ... 16
3.1.5 Start-up/circulating system ... 17
3.1.6 Spray attemperators ... 17
3.1.7 Hydrostatic testing ... 17
3.2 Flue-gas systems and their insulation ... 18
3.2.1 Basic requirements for flue-gas ducts ... 18
3.2.2 Flue-gas dampers ... 19
3.2.3 Expansion joints in flue-gas ducts ... 20
3.2.4 DENOX systems ... 20
3.2.5 Stack ... 20
3.2.6 Thermal insulation ... 21
3.2.7 Selection of insulation conceptions ... 21
3.2.8 Build-up of insulation ... 22
3.2.9 Sound insulation ... 23
3.3 Accessibility during operation and for repair work ... 23

4 Thermal and fluids engineering ... 24
4.1 Approach point ... 24
4.2 Pinch point ... 25
4.3 Circulation ratio ... 25
4.4 Froude number ... 25
4.5 Evaporator system design ... 25
4.6 Gas-side pressure drop ... 26
4.7 Exit gas temperature ... 26
4.8 Emissions ... 27

5 Operating modes ... 27
5.1 Start-up and shutdown, general ... 27
5.2 Start-up of once-through as well as natural and assisted-circulation boilers ... 27

5.3 Start-up of once-through boilers without start-up vessel 28
5.4 Plant shutdown, general 28
5.5 Rapid changeover from gas turbine to forced-draught operation 28
5.6 Purging 29
5.7 Load behaviour and temperature control 29
5.8 Sliding and fixed-pressure operation 30
5.9 Load response rate 31

6 Internal cleaning 31

7 Preservation (lay-up) 32

8 Water chemistry 32
8.1 Solid matter alkalisation 32
8.2 Alkalisation with volatile agents 33
8.3 Combined dosing 33

9 Claims for defects 34
9.1 Claims for defects 34
9.2 Liability for defects 34
9.3 Contractual penalty for efficiency underrun 34
9.4 Right of rescission 34

10 Acceptance tests 35

11 Quality assurance 35
