

The **European Investment Bank (EIB)**, the European Union's financial institution, based in **Luxembourg**, is seeking for its **Projects Directorate**:

Energy Engineers and Economists

The European Investment Bank wishes to enhance its contribution to EU energy policy objectives and has made the financing of energy-related projects a new lending priority. In this context, the EIB is looking for energy specialists. They will assess the viability of energy projects in all countries of Bank operations. They will also prepare studies related to the energy matters.

Qualifications: • A Masters degree in engineering or economics. A multidisciplinary background and/or postgraduate degree would be an advantage • **A minimum of 5 years of professional experience** in the energy sector, particularly assessment of projects in this field • Economists should have in-depth knowledge of energy markets and policies, and of applied quantitative techniques. Engineering candidates should have knowledge of the key technological aspects of the sector, as well as experience with environmental impact assessments and procurement • **Excellent knowledge of English or French and a good command of the other.**

For further details or to apply, please go to **www.eib.org/jobs** and click on reference number **PJ07WWW07**.

The EIB offers attractive terms of employment and remuneration with a wide range of benefits and is an Equal Opportunity Employer.
