

VGB European Working Group “Emissions Monitoring”

Member list – Personal info

Name	Alessio Baldini
Company	ENEL / Italy
Job title	Junior Scientist
Education	Degree Chemistry
Current responsibilities	Research projects Samplings and emission testing
Contact info	Dr Alessio Baldini ENEL Produzione SpA Engineering and Innovation – Research Technical Area via Andrea Pisano 120 56122 Pisa / Italy email alessio.baldini@enel.it phone +39 050 618 5451 fax +39 050 618 5651
Name	Frans Blank
Company	KEMA / The Netherlands
Job Title	Senior Consultant
Education	Chemistry (MSc)
Current responsibilities	Measurement, modeling and reporting of pollutants and greenhouse gases to air Modelling of dispersion and deposition of emissions through air (from stacks, traffic, airplanes, ships, stables, deposits etc.) Ambient air quality measurements
Contact info	Drs Frans Blank KEMA Nederland B.V. Utrechtseweg 310 P.O. Box 9035 6800 ET Arnhem / The Netherlands email frans.blank@kema.com phone +31 26 3 56 23 00 mobile +31 26 3 56 23 00 fax +31 26 4 45 46 59

Name **Rémi Bussac**
Company EDF / France
Job title Environmental Project Manager
Education Research Master in energy, combustion and fluid mechanics
Current responsibilities In charge of air and emissions compliance within the Environment Team of EDF Fossil Fired Generation & Engineering (DPIT)
Coordination of EDF activities involving power stations, engineering and R&D departments
Preparation of EDF national guidance on CO₂ monitoring, pollution inventory, emission monitoring, LCPD implementation
Communication with national and local environmental authorities
Representative in the French standardization committee AFNOR regarding the air
Chair of the working group on emission monitoring and reporting within EDF group
Contact info Rémi Bussac

Name **David Graham** (Chair)
Company E.ON Engineering / UK
Job title Technical Consultant
Education B. Eng in Chemical Engineering
Current responsibilities Technical monitoring specialist for the UK power industry Joint Environmental Programme
Preparation of industry protocols and guidance on monitoring and reporting of emissions and consultation with the UK Environment Agency on these issues – with the other UK generators
Advising the power stations about different standards and other requirements for CEMs
Purchasing specifications and tender assessments
EU ETS reporting
Gas turbine and fluidized bed combustion
Contact info David Graham

Name **Anna Häyrinen**
Company Helsingin Energia / Finland
Job title Environmental Engineer
Education MSc in Chemical Technology
Current responsibilities Preparing the monitoring plans for power stations according to the environmental permits
Advising the power stations about different standards and other requirements for CEMs
Yearly emission reporting to the environmental authorities, including E-PRTR
Supervision of non-accredited emission measurement lab
Participating in different national working groups and projects concerning emissions into air
Air pollution control and noise control
Contact info Anna Häyrinen

Name **Henrik Harnevie**

Company Vattenfall BU Thermal/ Sweden

Job title Technical and Environmental Consultant

Education MSc in Chemical Engineering

Current responsibilities Participating in WG3, WG4, WG9, WG24 within TC264; Responsible of CEN – air quality, for “Elforsk”, the Swedish electricity companies’ branch organization

Membership in the Swedish forum for standardization of biofuels and recovered wood

Duties concerning juridical and technical consequences of different EC-directives, for example the proposed IE-directive; Implementation in plants, for example fuel changes from bio fuel to co-incineration in different plants; Technical, juridical and economical consequences

Duties concerning prevention of corrosion and fouling at super heaters

Contact info Henrik Harnevie

Vattenfall AB

Business Unit Thermal

P.O. Box 1046

61129 Nyköping / Sweden
