Call to submit Suggestions for Papers!

VGB's annual Conference "Chemistry in Power Plants" will take place at the Maritim Hotel & and Congress Centrum Bremen, Hollerallee 99, 28215 Bremen. The conference is a forum for operators of energy utilities and industrial power plants. Operating experience will be discussed and technical developments will be represented in the field of power plant chemistry.

The following major items will be presented at the conference:

- Conditioning of water steam cycles and cooling water cycles
- Methods of water preparation and waste water treatment
- Chemical aspects of co-firing secondary fuels
- Chemical aspects of flue gas cleaning methods
- Analytic and quality assurance
- Chemistry in nuclear power plants

The conference will be accompanied by a Foyer Exhibition, which gives exhibitors the opportunity to present their companies and/or products.

The VGB Technical Committee "Chemistry" takes care for the specialized programme. The conference turns to all experts regarding the field of Power Plant Chemistry. The members of the VGB Technical Committee "Chemistry" asks all interested persons to participate actively in the organisation of this event in order to create an attractive and interesting programme. Use the opportunity to exchange experience with colleagues, to obtain information about new developments and to visit the Foyer Exhibition.

You are kindly asked to make written proposals for lectures and speakers by fax or e-mail not later than

May 10, 2010

We also ask you to let us know if you are interested in participating as exhibitor:
