Impurities
- Clays: 0 % - 30 %
- Calcite, dolomite: 0 % - 30 %
- Silica: 0 % - 10 %
- Celestine: 0 % - 4 %
- pH: 5-9

Please note: Companies intending to register CaSO₄ containing impurities not identified in this specification, even if present in quantities <0.1 %, that have an effect on the hazard classification of this substance are responsible for declaring these impurities and addressing any subsequent additional data or information requirements in their own registration dossier. This can be done using the PNECs and DNELS of the relevant substances when available.
